

LISTEN. THINK. SOLVE.®

## You're Invited to a Power Quality & Energy Management Seminar

Join Rockwell Automation and CED for an informative half day event. Learn how Rockwell Automation can help you design an energy management solution to optimize energy efficiency and improve productivity.

### Don't let power problems impact your profitability.

Ensuring your systems stay up and running 24/7 is critical to your success. An estimated 30 to 40 percent of all business downtime is due to power quality and over \$15 billion is lost each year due to power disturbances.

Rockwell Automation helps businesses worldwide maximize the efficiency and reliability of their critical equipment to minimize power quality and energy risks. Join us for this event and learn about the solutions and services we can provide to help you create a sustainable, efficient energy management program.

**August 23<sup>rd</sup>, 2016**

**9:00 am – 1:00 pm**

Lunch will be provided

**Rockwell Automation**

**1 Information Way, Suite 100**

**Little Rock, AR 72202**
