Troubleshooting of Motion Systems

May 2017 TechConnect Genius Webinar

LISTEN. THINK. SOLVE.®

You're invited!

May 2017 TechConnectSM Genius Webinar: Troubleshooting of Motion Systems

Thursday, May 25, 2017
11:00 a.m. CT

Join us to hear Michael Cardoso, Rockwell Automation Technical Support Engineer, discuss troubleshooting of motion systems. He will review the basic practices of troubleshooting and more:

-) Understanding servo drive faults
-) Motion instruction errors and programming practices
-) Axis configuration and errors

You will receive 1 Professional Development Hour (PDH) by attending this webinar live!
